

Custom Tutoring and Academic Coaching

Services Provided:

Academic Tutoring- Literacy Skills, Reading and Writing; Number Sense and Early Math Skills

Based on your child's needs, I will provide lessons and practice with phonological (sound) awareness, word identification/phonics, vocabulary/concepts, comprehension (decoding), composition, and fluency. Having received professional training on the Orton-Gillingham approach to literacy instruction, I have many resources and tools to assist students with learning difficulties.

Study Habits & Executive Skills- Organization of Time and Material to Maximize Success

As your child's tutor I will help them through the process of goal-setting and self-management that will enable them to improve their skills, achieve competency, and find more success in school. By committing to effective strategies, plenty of practice and a positive outlook, we will build a system your student will want to work, because it works for them.

Pre-College Planning- Path to College Timeline and Checklist, High School Resumé Help, College Essay Editing

As students navigate their high school careers, it is helpful to have some ideas about their vision for the future. Having a system in place to guide them through the college planning and academic resume building process is useful so that the task does not become overwhelming. I will work with your child to help them structure their time, put their experiences on paper, and prepare themselves for the college admissions process.

Homework Help- Guidance, Pacing, and Assistance in Completing School Assignments

By providing an environment of low-key, supportive attention, I will work with your student as they do their homework. Whether it is a special project, daily homework or just having the structured environment to pay attention to the task at hand, I will provide the support and assistance they need to stay on track and do their best.

Fees and Policies:

Rate – \$60 per hour, payment by cash or check.

Cancellation – Please let me know via text or phone call if you need to cancel. If you cancel after 5pm the day before or do not show up for an appointment, you will be charged \$30.
